Hello Richelle,

The original text that I provided for this ATIA request included the following paragraph that was omitted from Acknowledgement Letter 2026-G-0733:

> "Request: Please provide any final (i.e., not draft) documents that comprise risk assessment or economic analyses and that contributed to the development of City of Edmonton Procedure Snow and Ice Control Procedure C409K. Note that at the time of the original email request, I was unclear that the City had separate Policy and Procedure documents. This request pertains solely to the Procedure document."

The Acknowledgment Letter then summarizes my request as:

> "Risk assessment or economic analysis completed to support the City's Snow Clearing Policy"

Based on my Request, it should be clear that I was not requesting assessments or analyses related to the Policy, but rather the Procedure, and specifically the City of Edmonton Snow and Ice Control Procedure C409K. Please revise the request to ensure that it is referenced to Procedure C409K, rather than to the Policy.

Best regards,

[redacted]
