Slip, Trip, and Fall Injury Data Request - Edmonton

[redacted]@albertahealthservices.ca> Tue, Oct 13, 2026 at 2:38 PM
To: [redacted]

Hi [redacted]

You can attribute the following to EHS-Alberta:

EHS responded to 1,878 incidents classified as slips and falls in Edmonton in January 2026.

Background: Please note that these incidents were not necessarily related to ice or snow.

Thank you for this. Yes - I am only looking for numbers for January 2026, Slips, Trips, and Falls. This is for a direct comparison to the number presented in the City News article for December 2025.

I am looking to have something ready to publish within the next ten days (i.e., by October 23) if that is possible.

Best regards,

[redacted]

---

Hello,

I'm doing some research for an article, trying to follow up on data reported in the following news article: http://edmonton.citynews.ca/2026/01/20/edmonton-slips-falls-injuries/

That article states that " Data from Emergency Health Services show in December [2025], Edmonton emergency crews responded to 1,064 slip and fall events – the highest monthly figures in the last two years." I am trying to identify the corresponding number for January 2026. Are you able to provide that number, or a link to a database / report where it can be extracted?

Thank you,

[redacted]
